SHANDONG HALF BENCH

\$1,880

c. 1900 • Shandong, China • Northern Elmwood • Collection #TLA041

W: 39.5" D: 12.0" H: 19.5"

This square corner half bench from China's Shandong province has a straightforward design with clean lines and balanced proportions. Dated to the early 20th century, the bench was constructed of northern elm (yumu) with mortise-and-tenon joinery and features a floating panel top, straight legs, and an open, paneled apron. Minimally decorated, the bench has been recently refinished for a well-worn texture that calls to be touched.
