PUDDINGSTONE PILLAR SCULPTURE

\$680

Shandong, China • Stone • Collection #E194G

H: 47.0" Dia: 5.0"

Carved from a single block of puddingstone, this stone obelisk makes for a striking addition to a garden or interior as a minimalist modern sculpture. Though it looks like a meticulous painting, the mesmerizing pattern of puddingstone is actually inherent to the material, a conglomerate stone quarried in the Shandong region of China and prized by scholars for its exceptional patterning.
