## **ROUND CRUSHED BAMBOO TABLE**

## \$980

Guangdong, China • Bamboo • Collection #CAD116B H: 17.0" Dia: 23.5"

This round pedestal table from Guangzhou, China has a simple and effortless design that works itself seamlessly into any interior. Crushed bamboo brings subtle texture to the minimal form and a finish of chestnut brown lacquer brings out its sculptural geometry. A staple of Chinese furniture since the Song dynasty, bamboo was valued for its physical properties as much as its rich symbolism, representing humility, strength, and endurance.
