THREE DRAWER COLLECTOR'S SHELF

\$1,880

c. 1900 • China • Northern Elmwood • Collection #CFC291

W: 29.5" D: 6.5" H: 31.5"

Dated to the late 19th century, this provincial collector's shelf once stood in an office or home studio, displaying a curated collection of precious objects such as porcelains, bronzes, jades, and scholars' rocks. The shelf features two shelves enclosed by scalloped frames and three drawers underneath, perhaps used for stowing incense accessories and other smalls. Beautifully aged from a century of use, this small collector's shelf adds rich texture to modern interiors, whether filled with books beside a sofa or piled high with hand towels in a powder room.
